

Owned Cat Spay/Neuter Pre-op Reminder

- Please withhold food after midnight the night before surgery.
- Remove all collars before your cat arrives for surgery.
- Use a secure carrier (preferably a hard plastic carrier, if possible) and make sure it is labeled with your cat's name. Only one cat per carrier. No leashes.
- If your cat has not yet been given a Rabies vaccine this year, bring a copy of your Rabies certificate (not the tag) for verification, if you did not already attach to the surgery waiver. If your cat is over 3 months of age and has not had the Rabies vaccine, that will be added.
- Please arrive promptly for Drop off at 7:15 am at the front door of Good Mews Animal Foundation. We will check your kitty in for surgery in the lobby. We cannot accept patients after 7:30 am. Arrivals after this time will require rescheduling.
- Pick up is promptly at 3:30pm at the same location and payment will be taken at that time if not paid prior to arrival. Pick ups after 4:00 pm will incur a \$25 late fee.

Please let us know if you have any additional questions. spayneuter@goodmews.org
